PROFESSIONAL SUMMARY

Full-Stack Software Developer with 2.5 years of experience building scalable SaaS platforms, dashboards, and eCommerce applications using MERN Stack, Next.js, and Python. Skilled in secure authentication, Stripe/PayPal payment integrations, cloud deployments, and database optimization. Proven ability to deliver client-facing solutions with clean architecture, responsive design, and performance-optimized systems.

CORE SKILLS

- **Frontend:** React.js, Next.js, React Native, Redux Toolkit, TailwindCSS, Shadcn UI, Bootstrap
- **Backend:** Node.js, Express.js, PHP, Python, REST APIs, GraphQL, JWT, Redis
- **Databases:** MongoDB Atlas, PostgreSQL (Neon), MySQL, Prisma ORM, Mongoose
- **Tools & Platforms:** Git, GitHub, AWS, Firebase, Cloudinary, ImageKit, Docker, Nginx, Vercel
- **Other**: Stripe & PayPal Payments, PhonePe Integration, Authentication (OAuth/OTP), S3 File Uploads, Arcjet Security, Agile

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer   **Dec 2024 – Present**

- **Learning Management System (LMS)** │ GitHub (In Progress)
- Built with Next.js 15, TailwindCSS, Shadcn UI, Neon Postgres, Prisma ORM.
- Features: Email OTP & GitHub OAuth (Better-Auth), Arcjet Security for XSS & SQLi protection, Stripe subscription billing, drag-and-drop course builder, custom video player, admin & customer dashboards, analytics, and file uploads via S3 presigned URLs
- Designed a fully responsive, performance-optimized architecture with clean, maintainable codebase.

- **Multi-Vendor E-Commerce Platform** │ GitHub (In Progress)
- SaaS-style marketplace where vendors can create/manage their own stores (PostgreSQL + ImageKit).
- Admin Dashboard for store approvals, discount management, and premium subscription billing.
- Integrated Stripe payment gateway for online purchases & vendor payouts.
- Deployed on Vercel with CI/CD pipeline.

- **Kerala Bakery – Business Website** │ Live
- Designed and developed a fully responsive bakery website with React.js + TailwindCSS and Typescript
- Optimized SEO and performance for local business growth
- Integrated clickable Whatsapp contact.

Full-Stack MERN Developer | Doctosmart Enterprises, Cyberpark, Calicut.   Jul 2024 – Dec 2024

- Developed a blog platform with Google Auth, Gmail verification, role-based access, and admin dashboard.
- Enhanced UI/UX with dark/light mode toggle and responsive design.
- Deployed on MongoDB Atlas with optimized APIs for better scalability.
- Delivered specialized IVF pages and web modules for healthcare clients.

MERN Developer (Intern → Developer) | Learnbuds, Kochi   May 2024 – Jul 2024

- Improved RESTful API efficiency by 20% through query optimization.
- Automated backend workflows using Python, boosting performance by 25%.

Software Development Intern | Brototype   Nov 2022 – Aug 2023

- Completed 9-month MERN-focused program with multiple live projects.
- Gained hands-on experience in React.js, Node.js, MongoDB, Express.js.
